REASONS FOR ALLOWANCE

1. Claims 1-6 are allowed. 

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of claims 1-6, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper.

In regard to claims 5 and 6, see the reasons for indication of allowable subject matter in claim 4, as stated in the Office action of 09-21-2004.

The prior art fails to teach a combination of all the features in claim 1. For example, these features include the detailed structure and conditions recited, especially the limitation that the negative first lens group consists of a negative meniscus lens element having the convex surface facing toward the object, in combination with all the other limitations of the claim.

Claims 2-4 depend on claim 1 and are therefore allowed as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
